

Technical Datasheet: LLDPE 235F6

Product Description:

LL-235F6 is a linear-low density polyethylene resin (LLDPE), obtained by gas phase technology process. This grade designed for the production of different type of films and agricultural tapes. In this grade excellent processability, mechanical properties, melt strength and drawability achieved based on the balanced molecular weight and molecular weight distribution. LL-235F6 has good sealability and approved for food contact applications.

Applications:

- Lamination films
- Agricultural Films and Tapes
- Shrink Film
- Industrial Film
- Frozen Food Packing
